

CORPORATE PROFILE

The Pioneers In
Intelligent Traffic &
Street Light Solutions

2020

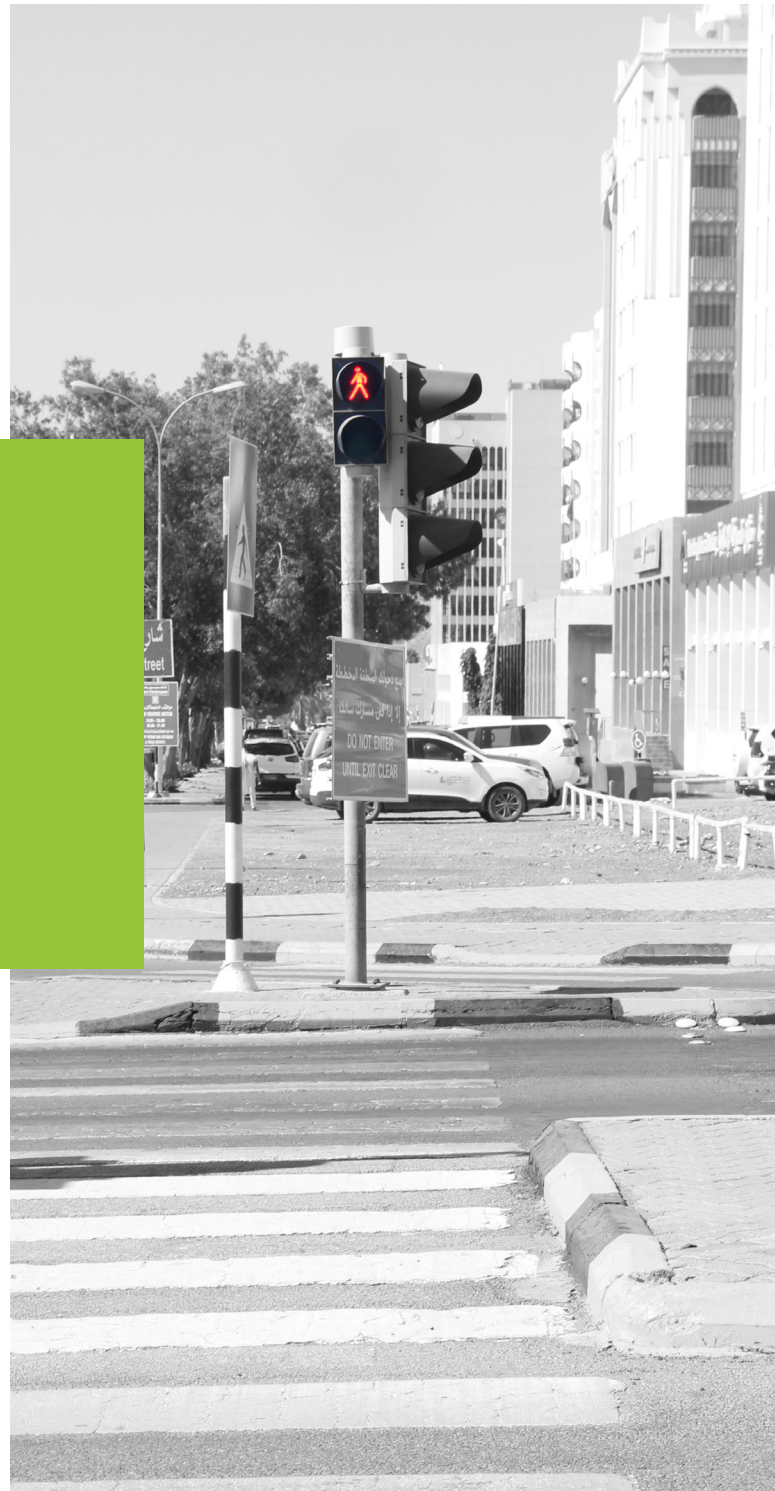

INTELLIGENT TRAFFIC SOLUTION WITH MODERN NETWORK ENTERPRISES

Our 24-hour, 7 days a week working environment enables us to implement the Traffic and Street Lighting solution for customers in the fastest possible time frame.

Modern Network Enterprises was founded in the year 2004 as a small company with a big vision. We are specialized in providing highly advanced traffic solution equipment that meets the need and are trustworthy. Our approach to Traffic Solution and the technologies we employ enable us to deliver the highest levels of solution with quality, accuracy, and quick turnaround.

Year after year we have continued to develop and expand, investing in technology with quality and building on the dedication and expertise of our management and staff. Our development has been closely controlled, maintaining our unequivocal commitment to high-quality equipment and excellent customer service. We currently stand among the pioneers in providing highly advanced Traffic and Street Lighting solutions, maintaining a phenomenal growth over the years.

Today we execute the process of providing Traffic and Street Lighting solution for many companies and organizations, including both Small/Medium-sized Companies, government bodies and the top International Fortune 500 Companies.

VISION

To be a globally respected and accepted organization that provides best-of-breed business solutions, leveraging technology, delivered by best-in-class people resulting in maximum customer satisfaction.

MISSION

To achieve our objectives through our committed effort towards our clients, employees, vendors, society and shareholders

CUSTOMER SATISFACTION

A commitment to meet our customer expectations.

LEADERSHIP IN ACTIONS

A commitment to set standards in our business, process, communications, and transactions and set an example for the industry and our own team members.

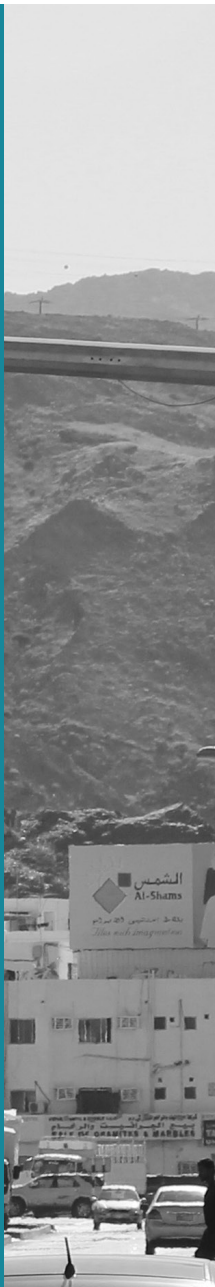

INTEGRITY AND TRANSPARENCY

A commitment to be professional, sincere and open in our transactions and dealings.

DRIVING ON PERFECTION

Commitment to strive relentlessly, to constantly improve ourselves, our processes, our people, and our services so as to become the best.

FUTURA

TRAFFIC LIGHTS

FUTURA's slim and elegant design will change the look of urban landscapes around the globe. At the same time FUTURA offers a new level of efficiency and environmental respect.

Choosing FUTURA makes you contribute to the reduction of CO2 emissions from product manufacture and energy production. FUTURA is the world's first traffic signal developed under eco design principles and sets a new level in the 21st century traffic signaling.

AWARD WINNING PRODUCT

- Nomination for Austria's National Award Focus 2008: Efficiency in climate protection.
- CREATECH contest: Special recognition, ideas in traffic technology and creative business.

CHOOSE THE BEST

Ultimate solutions for all traffic signalization around Sultanate of Oman. We believe in providing the right solution understanding the need and requirements.

OUR PROJECTS (INTELLIGENT TRANSPORTATION SYSTEMS (ITS) PROJECTS)

A part of ITS Muscat. Innovations are on its way. It is just a beginning for the changes to take place around the Sultanate of Oman creating a better and efficient way to improve public safety.

► Project 1

Consultancy Services for the Design of Muscat Traffic Management Center

General Contractor

Dr Brenner Engineering (Aalen, Germany)

Project Status

Completed

Owner

Muscat Municipality

Sub Contractor

Modern Network Enterprises L.L.C

Country

Sultanate of Oman

Project Background

Since 1970, the Muscat Capital Area has experienced a rapid development in infrastructure that lead to the growth of a vibrant economy and multi-ethnic society. Accidents, traffic congestion and managing heavy goods vehicles traffic are prevailing issues in daily traffic and considering the major transformation required in the coming future, the project is initiated to address the safety issues, improve traffic signal operation and deploy Intelligent Transportation System (ITS) on the major roads of Muscat City to help improve mobility and access on the road network.

Our Scope Summary

- Provide the necessary assistance to carry out the consultancy function for the design of Intelligent Transportation System (Muscat).
- Provide with necessary number of skilled and professional engineers capable to carry out the functions appropriately.
- Provide with necessary mode of transportation for site survey and other task related to the design of the ITS.
- Coordinate with the Dr.Brenner engineers in the design of ITS.
- Supporting and coordinating with Dr.Brenner Engineers with our existing skilled and technically strong engineers in the analysis of system.
- Provide with basic data and information as required for the ITS.

OUR PROJECTS (TRAFFIC SIGNALIZATION PROJECTS)

► Project 2

Design, Installation and Commissioning of Road Improvement at Al-Mubaila Dual carriageway & Junction Traffic Lights Improvements.

Owner

Muscat Municipality

General Contractor

Ali & Co Trading and Contracting L.L.C

Sub Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Aug 2012

Location

Al Mubaila Area- Muscat

Country

Sultanate of Oman

Our Scope Summary

- Supply & Installation of cantilever signal gantries including all accessories cabling, brackets.
- Supply & Installation of 3.2m high vehicular & pedestrian combination traffic signal poles including accessories and cabling.
- Supply & Installation LED Three, two and one Aspect Traffic signal heads Aluminum body with Aluminum brackets including internal wiring and visors and masks,
- Installation, testing and commissioning

► Project 3

Design, Installation and Commissioning of Traffic Signals for Seeb Phase II Project, Muscat

Owner

Muscat Municipality

General Contractor

Simplex Infrastructure Limited

Sub Contractor

Modern Network Enterprises L.L.C

Project Status

Completed April 2014

Location

Seeb Phase II- Muscat (3 Intersections)

Country

Sultanate of Oman

Our Scope Summary

- Supply & Installation of cantilever signal gantries including all accessories cabling, brackets.
- Supply & Installation of 3.2m high vehicular & pedestrian combination traffic signal poles including accessories and cabling.
- Supply & Installation LED Three, two and one Aspect Traffic signal heads Aluminum body with Aluminum brackets including internal wiring and visors and masks
- Installation, testing and commissioning.

We have consistently proved our efficiency and dedication with handful of Traffic Signalization at various prime locations within Muscat and continue to explore more throughout the Sultanate of Oman.

► Project 4

Design, Installation and Commissioning Of Underpasses & Flyover along Darsait- Al Wadi Al Kabir Road Traffic Signals.

Owner

Muscat Municipality

General Contractor

Larsen & Toubro LLC (Oman)

Sub Contractor

Modern Network Enterprises L.L.C

Project Status

Completed

Location

Al Wadi Al Kabir (7 Intersections)

Country

Sultanate of Oman

Our Scope Summary

- Supply & Installation of cantilever signal gantries including all accessories cabling, brackets.
- Supply & Installation of 3.2m high vehicular & pedestrian combination traffic signal poles including accessories and cabling.
- Supply & Installation LED Three, two and one Aspect Traffic signal heads Aluminum body with Aluminum brackets including internal wiring and visors and masks.
- Supply & Installation of Push Button.
- Supply & Installation of Video Detection Citilog Camera.
- Supply & Installation of Loop Detectors
- Installation, testing and commissioning of Cross Controller.

► Project 5

Construction of Mina Fahal Dual Carriageway for Ras Al Hamra Development.

Owner

Petroleum Development Oman

General Contractor

Khalid Bin Ahmed & Sons L.L.C

Sub Contractor

Modern Network Enterprises L.L.C

Project Status

Completed May 2015

Location

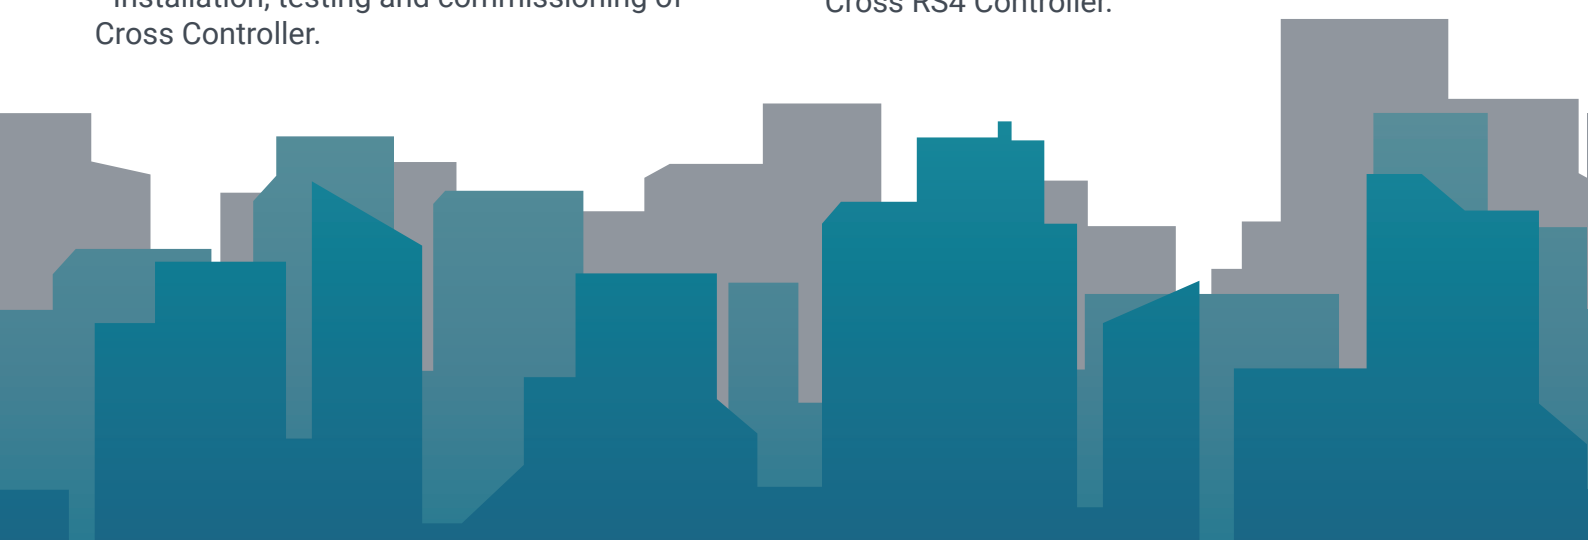

Seih Al Maleh Street PDO Gate No. 2

Country

Sultanate of Oman

Our Scope Summary

- Supply & Installation of cantilever signal gantries including all accessories cabling, brackets.
- Supply & Installation of 3.2m high vehicular & pedestrian combination traffic signal poles including accessories and cabling.
- Supply & Installation LED Three, two and one Aspect Traffic signal heads Aluminum body with Aluminum brackets including internal wiring and visors and masks.
- Supply & Installation of Push Button.
- Supply & Installation of Video Detection Citilog Camera.
- Supply & Installation of Loop Detectors.
- Installation, testing and commissioning of Cross RS4 Controller.

► Project 6

Design & Construction of Interchange Connecting the Airport from Al Jamma- Al Akabar and Dualization of Al Murtafa Street, Phase 1.

Owner

Muscat Municipality

General Contractor

Khalid Bin Ahmed & Son L.L.C

Sub Contractor

Modern Network Enterprises L.L.C

Project Status

On-going

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

- Supply & Installation of cantilever signal gantries including all accessories cabling, brackets.
- Supply & Installation of 3.2m high vehicular & pedestrian combination traffic signal poles including accessories and cabling.
- Supply & Installation LED Three, two and one Aspect Traffic signal heads Aluminum body with Aluminum brackets including internal wiring and visors and masks.
- Supply & Installation of Push Button.
- Supply & Installation of Video Detection Citilog Camera.
- Supply & Installation of Loop Detectors.
- Installation, testing and commissioning of Cross Controller RS4.

► Project 7

Construction of Service Road at Barka City Mall.

Owner

Barka City Mall

General Contractor

Khalid Bin Ahmed & Son L.L.C

Sub Contractor

Modern Network Enterprises L.L.C

Project Status

Completed May 2015

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

- Supply & Installation of 3.2m high vehicular & pedestrian combination traffic signal poles including accessories and cabling.
- Supply & Installation LED Three Aspect Traffic signal heads Polycarbonate body with brackets including internal wiring and visors and masks.
- Installation, testing and commissioning of Cross Controller RS4.

► **Project 8**

Supply of materials for traffic lights.

Owner

Royal Army of Oman

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Nov 2017

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

Supply Two Aspect Traffic signal heads Aluminum body with Aluminum brackets including interal wiring and visors and masks with 3.2meter Poles.

► **Project 9**

Design & Construction of Third lanning of the Main Road From Palace to Bait Al Barka Roundabout

Owner

Muscat Municipality

General Contractor

Desert Line Projects L.L.C

Sub Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Jan 2016

Location

Muscat

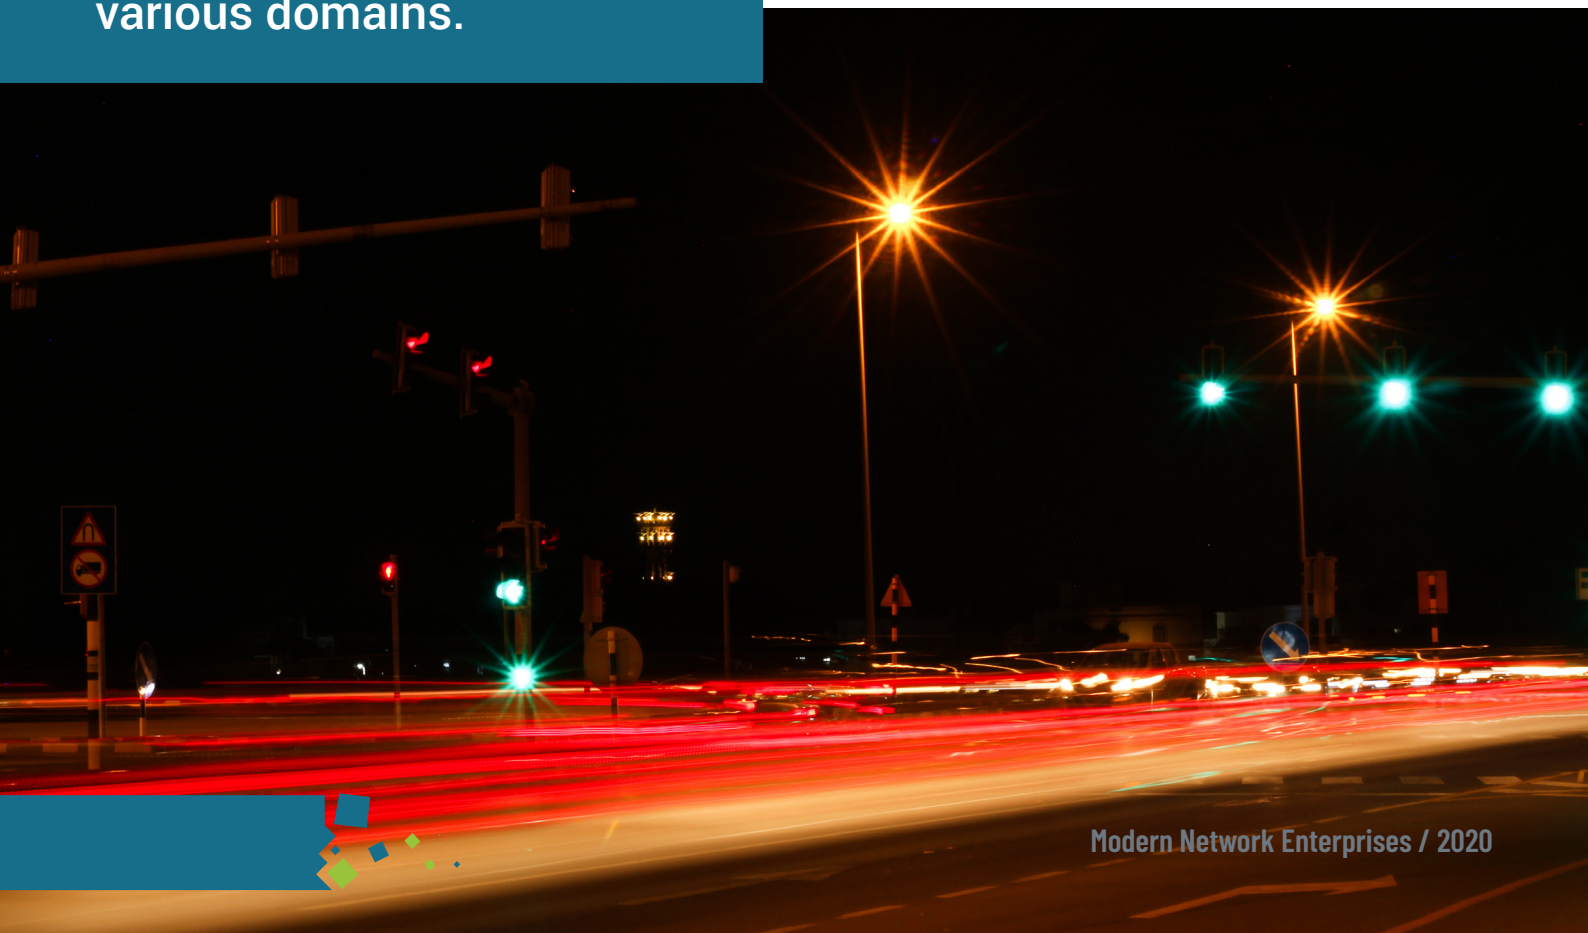

Country

Sultanate of Oman

Our Scope Summary

- Supply and Installation of HPS70 underpass lighting work
- Carry out all the electrical work for the underpass lights

Our few of the summarized Projects that we executed in various domains.

► **Project 10**

Supply & Installation of DSD System.

Owner

The Wave Muscat

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed July 2015

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

- Supply of DSD System
- Installation, Programming, testing and commissioning of DSD System.

► **Project 11**

Supply of Traffic Controllers and UPS System for traffic lights.

Owner

Muscat Municipality

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed May 2015

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

- Supply of Cross RS4 Traffic Controllers
- Supply of Alpha Technologies UPS System for Traffic Lights.

► **Project 12**

Design & Construction of Third Lanning of the Main Road From Al Mawaleh Interchange to Bait Al Barka Roundabout (Lot 1).

Owner

Muscat Municipality

General Contractor

Consolidated Contractors Company Oman L.L.C

Sub Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Aug 2014

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

- Supply and Installation of HPS70 underpass lighting work.
- Carry out all the electrical work for the underpass lights.

► Project 13

Design, Supply and Installation of Safety Sign and Entrance Boards.

Owner

ACWA Power Barka

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Jan 2012

Location

Barka – Batinah South

Country

Sultanate of Oman

Our Scope Summary

- Designing of safety signs
- Site survey
- Civil works
- Supply and installation

► Project 14

Design, Supply and Installation of Gas Line Signs.

Owner

ACWA Power Barka

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Jun 2012

Location

Barka – Batinah South

Country

Sultanate of Oman

Our Scope Summary

- Designing of gas pipeline signs
- Site survey
- Civil works
- Supply and installation of Gas pipeline signs.

► **Project 15**

Infocus Studio Point of Sale and Web Solution

Owner

Lacasa Majestic

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Jan 2012

Location

Muscat - Al Seeb

Country

Sultanate of Oman

Our Scope Summary

- XML and Flash Technology to manage studio items.
- Point of Sale system help to manage studio online and offline, its include more than 100 reports easy to customize as per requirements, and more its help to manage users as per roles, the system helps to track inventory and manage default order level.
- Online Web Solutions and Products categorizing online - www.infocustudio.net.

► **Project 16**

Supply of valve regulated lead acid battery for parking meter.

Owner

Muscat Municipality

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Nov 2011

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

- Supply Of valve regulated lead acid battery for parking meter.

Our engineers execute the activities considering all the high standard of traffic signalization and keeping up with your expectations.

► **Project 17**

Supply of Lighting and Sound System for Al Madinah Amphitheater at Al Qurum Natural Park

Owner

Muscat Municipality

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Nov 2011

Location

Al Qurum Muscat

Country

Sultanate of Oman

Our Scope Summary

- Supply of Moving Head 1200, 700 watt spot.
- Supply of Amplifier Crown Pulse.
- Lamp Osram HTIW/D7/60 XS, 700SE, Metallgen 1200 W/GS12

► **Project 18**

Supply of brackets for Traffic Signal Heads

Owner

Muscat Municipality

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Sept 2011

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

Supply of Cantilever Brackets for signal heads.

► **Project 19**

Providing Lighting and Sound System for Sultan Qaboos University Amphitheater

Owner

Sultan Qaboos University

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Oct 2011

Location

Al Rusayl – Muscat

Country

Sultanate of Oman

Our Scope Summary

- Providing Moving Heads.
- Providing spot lights.
- Amplifiers and cabling.
- Providing Speakers.
- Light and Sound Mixers

► **Project 20**

Supply of network cables and connectors

Owner

Muscat Municipality – IT Department

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Aug 2011

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

- Supply and Procurement of CATV / Broadband equipment

► **Project 21**

Lacasa Majestic Point of Sale and Web Solution

Owner

Lacasa Majestic

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed May 2011

Location

Shatti Al Qurum

Country

Sultanate of Oman

Our Scope Summary

- Point of Sale system help to manage warehouse or shop online and offline, its include more than 100 reports easy to customize as per requirements, and more its help to manage users as per roles, the system helps to track inventory and manage default order level.
- Online Web Solutions and Products categorizing online - www.lacasamajestic.com

► **Project 22**

Supply of parts for Parking Machines

Owner

Muscat Municipality

General Contractor

Waleed Associates L.L.C

Sub Contractor

Modern Network Enterprises L.L.C

Project Status

Completed March 2011

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

Supply of parts for parking machines.

► **Project 23**

Supply of materials for traffic lights

Owner

Muscat Municipality

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Oct 2011

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

Supply LED Three, two and one Aspect Traffic signal heads Aluminum body with Aluminum brackets including internal wiring and visors and masks.

► **Project 24**

Supply of Electronic Boards for Muscat Municipality

Owner

Muscat Municipality

General Contractor

STARS LIGHT L.L.C

Sub Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Oct 2010

Location

Muscat

Country

Sultanate of Oman

Our Scope Summary

Supply of electronic boards (Master VMS Controller and Slave VMS controller)

► Project 25

Supply of materials for Aluminum Traffic Signal Head lights

Owner

Muscat Municipality

General Contractor

Hi-Tech Projects L.L.C

Sub Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Sep 2010

Location

Muscat

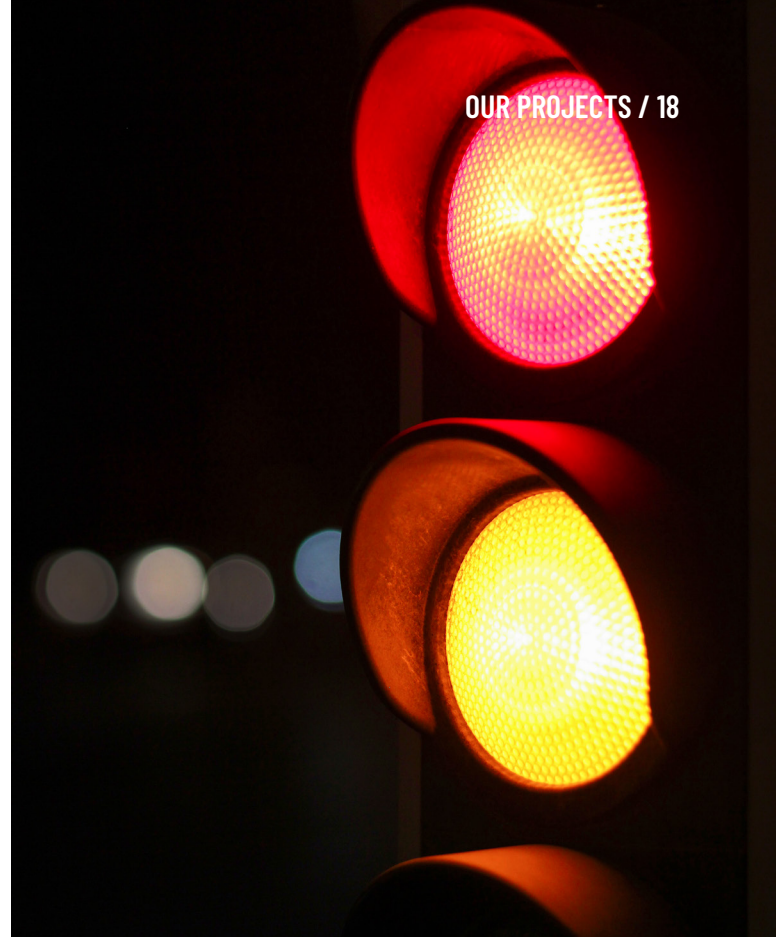

Country

Sultanate of Oman

Our Scope Summary

Supply LED Three, Two and One Aspect Traffic signal heads Aluminum body with Aluminum brackets including internal wiring and visors and masks.

We constantly work to give you the ultimate result and efficient turn around time for all projects.

► Project 26

Design, Development and Installation of Inventory Tracking System.

Owner

Royal Hospitality

General Contractor

Modern Network Enterprises L.L.C

Project Status

Completed Jan 2010

Location

Al Ghoubrah Guest House - Muscat

Country

Sultanate of Oman

Our Scope Summary

- Systems analysis and design and get Requirements
- Software Development
- Supplying of required hardwares and Cables
- Installing
- Testing
- Operations and Maintenance

OUR PARTNERS

DR. BRENNER INGENIEURGESELLSCHAFT MBH

DR. BRENNER

DR. BRENNER INGENIEURGESELLSCHAFT MBH, a consulting, planning and engineering company for urban and regional transport planning, public transport system development, traffic control & management and traffic infrastructure engineering. They are member firm of the BERNARD-Gruppe, a renowned interdisciplinary engineering company with international activities in the fields of transport, infrastructure, water, environment, energy and constructional engineering.

CROSS ZLIN

CROSS Zlín is a joint-stock company, based in the Czech Republic. CROSS is proud to be technology company offering wide range of products, components and turn-key solutions for road traffic since 1994 CROSS technology and solutions for intelligent traffic control include full-featured traffic light controller, cost-effective pedestrian crossing controller and software for monitoring, maintenance and full control over the urban traffic. CROSS RS 4, as an adaptive traffic light controller of the latest generation, meets all the requirements for up-to-date traffic.

SWARCO FUTURIT

SWARCO IS THE LEADING GLOBAL PLAYER IN LED-BASED SIGNALING TECHNOLOGY. SWARCO FUTURIT is specialized in traffic lights, variable message signs, in-road markers and railway signals that all work with the energy-saving long-life technology of light emitting diodes (LEDs). SWARCO FUTURIT is the world's leading manufacturer of high quality traffic signals.

CITILOG

Citilog is a leading provider of advanced video-based monitoring and surveillance products that enable traffic, security and safety management operators to identify incidents in real time instead of traditional passive solutions that act only to verify an incident after it has already come and gone. Citilog offers solutions to address Road and Infrastructure Safety, Security, Mobility and Sustainable Growth.

ALPHA TECHNOLOGIES

Alpha Technologies Ltd. is an established leader in the design and manufacture of power solutions for Telecom, CATV(Canada), Traffic, Security, Industrial and Renewable Energy Industries. The company offers a broad portfolio of high-quality, feature-rich solutions that can be customized to suit almost any application and environment offering the highest performance and best value in the industry. With a focus on being the power solutions partner, Alpha builds on over 35 years of experiences to develop solutions that solve customer's unique powering challenges.

STUDIO DUE

With over 30 years of innovation, design and manufacturing experience they have been creating state-of-the-art lighting solutions to support lighting designers, architects and lighting consultants in their challenges. Through constant research and innovation, and the use of premier-quality materials, they have established an international reputation as one of the market leaders in the field of professional and architectural lighting.

FLIR

FLIR Systems, Inc. designs, develops, manufactures, markets, and distributes technologies that enhance perception and awareness. We bring innovative sensing solutions into daily life through our thermal imaging, visible-light imaging, video analytics, measurement and diagnostic, and advanced threat detection systems.

SENSYS

Sensys Networks improves the way people travel through cities through accurate detection and actionable data. As an innovative Smart City technology company, Sensys Networks provides traffic visionaries and implementers with comprehensive detection and data platform for virtually all traffic management needs. Together with our world-class integration partners we enable datadriven decisions to drive efficient, economic and environmental improvements for cities.

SMART MICRO

Smart Micro is a specialist in Radar technology. We have been working with automotive customers since the company's founding in 1997. Today not only Automotive Radars are being developed, but the successful business has been extended to other fields of Radar like Traffic Radar or Airborne Radar. Smart micro manufactures many thousand Radar sensors per year and holds a number of important patents covering its products.

CITY LIGHT TELIKO

Citylight.net is one of oldest central street lighting management system software and hardware providers in EU. Launched first project in 2010, since then more than 200 cities in 16 countries have chosen citylight as central management system for they street lighting infrastructure. Citylight.net can offer high-quality street light management products and even implement unique features tailored for any city needs.

WHY US?

“Our efficient, dedicated engineers and updated technologies keeps us away from the competition and strive to provide smart solutions which would help you to eliminate all the issues related to traffic signalization and information technologies”.
